## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of the claims is the inclusion, in all of the claims, of the step of disconnecting the load from the cell and halting the flow of organic fuel from the source to the fuel processing system comprising multiple catalytic fuel processing components including a fuel reformer in series flow relationship with a catalytic shift converter; in combination, with the step of purging the reformer of residual hydrogen by flowing air through the reformer catalyst bed. The instant application is now deemed to be directed to an unobvious modification over the invention patented by Takechi et al' 986 and Cameron'839. Refer to the amendment filed and entered as part of the communication dated 06/30/04 for further details on applicant's rebuttal arguments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond Alejandro whose telephone number is (571) 272-1282. The examiner can normally be reached on Monday-Thursday (8:00 am - 6:30 pm).
